## HSA AND MEDICAL COST SHARING PROGRAM

**OUR MEDICAL COST SHARING PROGRAM COVERS HOSPITALIZATIONS, URGENT CARE, AND ER VISITS.**

A HealthShare is a membership program that allows members to share in medical expenses. Eagle Care Health Solutions has partnered with Zion Health to bring the best HealthShare experience. Zion Health is not an insurance program, but members share with one another major medical costs as a community.

To learn more visit [eaglecarehealth.com](http://eaglecarehealth.com)

### PREVENTATIVE CARE

The plan provides 100% coverage for preventative services as outlined by the Affordable Care Act and shown on [healthcare.gov](http://healthcare.gov). No copays, deductibles, or other out-of-pocket costs for these services.

### PRE-EXISTING CONDITIONS

In the first year of Membership, pre-existing conditions are not sharable with the Zion Health community yet.

After the first year of continuous Membership, up to \$25,000 can be shared. After the second year of continuous Membership, up to \$50,000 can be shared. After the third year and going forward, the pre-existing condition is now considered fully sharable with the Zion Health community.

### TELADOC

Teladoc gives members 24/7 access to a certified provider by phone or video chat. Through Zion Health, regular Teladoc visits cost members \$0. Medical experts can offer medical advice, write prescriptions, and share visit results instantly with your primary care physician.

### NETWORK

We offer pre-negotiated rates for many medical services with medical providers in the [PHCS/Multiplan Network](#). Currently, the network is required for preventive services and offers pre-negotiated rates and simplified use for other medical services. Additionally, many providers do not see new patients unless they are in a contracted network. PHCS/Multiplan Network is included in membership.
