TELEHEALTH

Telehealth gives members 24/7 access to a certified provider by phone or video chat. Telehealth cost members \$0 for Virtual Direct Primary Care, Virtual Urgent Care, and Virtual Behavioral Health. Medical experts can offer medical advice, write prescriptions, and share visit results instantly with your primary care physician.

ZERO OUT-OF-POCKET GROUND AND AIR AMBULANCE

Many people assume that their health insurance policy will cover them for ambulance rides and other emergency transportation. Unfortunately, this is often not the case. During the last ten years, huge gaps have opened in most insurance plans, which can leave you exposed to unexpected out-of-pocket expenses for ground and air ambulances, particularly when emergency transportation is required.

PREVENTIVE SHARING

Our health sharing membership was created to help share in the costs of standard screening services. Preventive Sharing helps you stay on top of your health with yearly office check-ups and early-detection procedures.

BASIC RX BENEFITS

The Basic Rx Benefit is a sophisticated pharmacy subscription service that helps to make managing the cost and availability of prescription medications more convenient and affordable.

FINANCIAL WELLNESS

A comprehensive and easy to use program that gives you access to features that can help with everything from goal setting, to budgeting, or managing complex financial situations. This is paired with information, resources, articles and personalized support to reach your unique financial goals.
